DENTCARE
CLEAR ALIGNER (CAD/CAM)

Dental braces are now entering a brave new world of comfort and ease with DentCare Clear Aligners – a series of transparent aligners to realign the teeth. Each DentCare Clear Aligner is unique as it is customized for the patient's teeth. They can be easily changed every two weeks, sparing users the tedious task of heavy maintenance.

There is absolutely no need to spend long hours at the clinic negotiating conventional brackets and wire adjustments. Patients and dental clinicians stand to gain numerous valuable hours. Consequently, the dental clinician also gets to spend quality, value-added time with each patient.

With DentCare Clear Aligners, the final outcome of the treatment may be visualized with the aid of a 3D virtual simulation and a treatment plan can be formulated accordingly. The treatment consists of a revolutionary system which integrates the latest software and 3D CAD / CAM technology.

To proceed with the CAD / CAM procedure for processing an order of a custom-made DentCare Clear Aligner, both upper and lower models of the patient's dental arches along with bite registration are required.

BIMAXILLARY PROTRUSION WITH SEVERE CROWDING

LOWER ALIGNERS: 12

ATTACHMENT : Upper Canines

DENTCARE ANTI-SNORING DEVICE

For those who snore while sleeping and for patients with "Sleep Apnea": DentCare offers the perfect solution in DentCare Anti-Snoring Device. With the DentCare Anti-Snoring Device, the lower jaw and the tongue are held in a protrusive (forward) position which helps to improve the airways, preventing the snoring sounds when asleep.

Snore No More

A DentCare Anti-Snoring Device consists of one splint for the upper jaw and one for the lower. The lower jaw is either held in a predetermined position or advanced by 2 connectors that are fixed laterally to the splint. A DentCare Anti-Snoring Device helps counteract the narrowing of the respiratory tracts. The velocity of the inspired air decreases and so do noise-generating vibrations of soft tissues. With a DentCare Anti-Snoring Device, jaw movements are possible but there is no falling back of the tongue, making it more comfortable and effective.

DENTCARE MOUTH GUARD TRIPLE

DentCare proudly introduces the ultimate mouth guard, DentCare Mouth Guard Triple, which makes possible for a safe play in high impact sports or in a pick-up game in the backyard, whether it is for an amateur or a professional athlete.

A DentCare Mouth Guard is a triple layered laminated professional sports mouth guard available in 26 different shades, which are soft both on inside and outside while hard in-between.

DENTCARE ORTHODONTIC & PEDODONTIC APPLIANCES

Stop worrying about inherited malocclusions. DentCare Orthodontic Appliances help elevate natural beauty of each individual and bring out the best in you.

DentCare has put forward a number of amazing Orthodontic Solutions – Removable, Habit Breaking, Fixed and Functional Orthodontic Appliances of highest perfection and optimal precision; manufactured with high-end technologies as well as Medical Grade and CE marked materials from Germany; available at affordable rates and living up to the expectations of all classes of customers alike - to correct your malocclusions and help resolve various aspects disfiguring your face and mouth.
